

ALTEA GREEN POWER TO TAKE PART IN "NEXT GEMS CONFERENCE 2023"

Scheduled in Milan from 17 to 18 October, the event will enable Altea Green Power to connect with some of the top national and international investors.

Rivoli (Turin), 16 October 2023 - Altea Green Power (EGM: Altea, hereinafter "AGP" or "the Company"), a company engaged in the development and construction of environmentally-friendly power generation plants and as a "service integrator" for all-round assistance during all the stages of the construction and management of green plants, announces its participation on 18 October 2023 as one of the prominent names in the fourth edition of the Next Gems conference, to take place from 17 to 18 October 2023 in Milan at the iconic Palazzo Mezzanotte, headquarters of Borsa Italiana.

The event, organized by Virgilio IR in partnership with leading financial market players, targets publicly-traded companies with a market capitalization below € 100 million. It provides a platform for Italian companies listed on Piazza Affari to connect with both national and international financial professionals.

The company will be represented by its Founder & CEO, Giovanni Di Pascale, General Manager Salvatore Guarino, and recently-appointed CFO Giancarlo Signorini. They will showcase the remarkable results achieved in first half 2023 and will delve into the company's future goals and strategies for both the Italian and American markets.

About Altea Green Power:

Altea Green Power is a company active in the development and construction of energy production plants that respect the environment and as a "service integrator", addressing its know-how and skills to individuals, companies, institutions and investors who want complete assistance during all phases of construction and management for a vast range of plant types, in particular in the photovoltaic, wind and BESS Storage sectors, thus contributing to the reduction of pollution.

Born in 2008 by the will of Giovanni Di Pascale, with the name of Altea Energia, in October 2021 it changed its name to Altea Green Power and today it can boast the turnkey supply of numerous photovoltaic and wind power plants and throughout the territory Italian. Its current core business is co-development in the wind, photovoltaic and storage fields. To date, it has contracted over 1.5 GW of photovoltaic and wind projects and approximately 0.5 GW of BESS Storage projects. Its customers are some of the major players in the world.

Since 1 February 2022 it has been listed on the Euronext Growth Milan market of Borsa Italiana.
