

## TP ICAP MIDCAP INITIATES THE COVERAGE OF ALTEA GREEN POWER STOCK WITH BUY RECOMMENDATION

Rivoli (Turin), February 6<sup>th</sup>, 2025 - **Altea Green Power (AGP.MI, hereinafter "AGP" or "the Company")**, a company engaged in the development and construction of "green energy" plants, announces that, today, TP ICAP Midcap has published the "Initiation of coverage of Altea Green Power stock", with a **BUY** Recommendation and a **Target Price of € 11.5**.

TP ICAP Midcap is an independent investment bank, specializing in Small & Mid Caps, based in Paris and London. The decision to use an international broker is aimed at further strengthening its presence especially in France, where the company already has a strong shareholder base, thus consolidating the company's strategic position in foreign markets.

**Giovanni Di Pascale, CEO of Altea Green Power, commented:** *"We strongly believe that expanding the coverage of AGP's stock, thanks to the involvement of TP ICAP Midcap's international team, is an important step to provide greater visibility for the stock to foreign institutional investors and to support our company in the growth path undertaken".*

### About Altea Green Power

Altea Green Power is a company listed on the Italian Stock Exchange - STAR segment -, founded in 2008 in Rivoli with the aim of supplying and managing renewable energy plants - photovoltaic, wind, storage - capable of guaranteeing maximum efficiency and guarantee of operation, in full respect of the environment. Altea Green Power is also an Independent Power Producer (IPP) from exclusively renewable sources and a supplier of EPC (Engineering, Procurement and Construction) services, offering itself as the sole interlocutor for the construction and start-up of renewable plants. In a market that places energy transition at the centre and in which medium and large-sized companies are increasingly protagonists, Altea Green Power wants to be a reference partner in the field of energy efficiency, supporting its customers in identifying the best solutions to reduce energy consumption and the consequent impacts on the global climate.
