

## ALTEA GREEN POWER WILL PARTICIPATE AT THE TP ICAP MIDCAP CONFERENCE 2025 IN PARIS

Rivoli (Turin), May 14, 2025 - **Altea Green Power (EGM: AGP, hereinafter "Altea" or "the Company")**, a company engaged in the development and construction of "green energy" plants, will participate on Thursday, May 15<sup>th</sup>, 2025, at the "**TP ICAP Midcap Conference**" which will take place in Paris.

During the event, in the prestigious setting of the Pavillon Dauphine, the different companies will have the opportunity to meet with several international investors from across Europe in one-on-one or small group sessions.

Representing the company at the event will be the Chief Executive Officer Giovanni Di Pascale, the General Manager Salvatore Guarino and the Chief Financial Officer Giancarlo Signorini, who will present the company's growth plans, recent achievements, and future objectives during the meetings.

**Giovanni Di Pascale, CEO of Altea Green Power commented:** *'Our participation over the past two years in the TP ICAP event organised in Paris has proved to be a strategic driver of growth. Indeed, we have seen a significant increase in the number of Altea Green Power shares in the hands of French investors. This is a clear sign of overseas investors' interest in the company and confirms Altea Green Power ambition to consolidate its presence in the international arena'*.

### **About Altea Green Power**

Altea Green Power is a company listed on the Italian Stock Exchange - STAR segment -, founded in Rivoli with the aim of supplying and managing renewable energy plants - photovoltaic, wind, storage - capable of guaranteeing maximum efficiency and guarantee of operation, in full respect of the environment. Altea Green Power is also an Independent Power Producer (IPP) from exclusively renewable sources and a supplier of EPC (Engineering, Procurement and Construction) services, offering itself as the sole interlocutor for the construction and start-up of renewable plants. In a market that places energy transition at the centre and in which medium and large-sized companies are increasingly protagonists, Altea Green Power wants to be a reference partner in the field of energy efficiency, supporting its customers in identifying the best solutions to reduce energy consumption and the consequent impacts on the global climate.
