

**ALTEA GREEN POWER: AUTHORISED BY THE MINISTRY OF THE
ENVIRONMENT AND ENERGY SAFETY A NEW 80 MW BESS PROJECT
IN PIEMONTE**

**THE AUTHORISATION CONFIRMS THE SOLIDITY OF THE PATH UNDERTAKEN
AND THE ABILITY TO EFFICIENTLY MANAGE MULTIPLE AUTHORIZATION
PROCESSES IN PARALLEL**

**AGP CONSOLIDATES AND STRENGTHENS ITS PRESENCE IN A TERRITORY
THAT IS STRATEGIC FOR THE DEVELOPMENT OF STORAGE SYSTEMS, SUCH
AS NORTHERN ITALY**

Rivoli (Turin), 11 August 2026 - **Altea Green Power (AGP.MI, hereinafter “AGP” or “the Company”)**, a company active in the development of projects and the construction of “green energy” plants, announces that the MASE (Italian Ministry of the Environment and Energy Security) has authorised the **project for an 80 MW battery energy storage system (BESS)** located in **Piedmont**, in the Municipality of Castelnuovo Scrivia (AL), called RPC Castelnuovo.

The project adds to the 60 MW project authorised last April in Vignole Borbera ([see press release](#)), confirming the effectiveness of the structured framework of BESS initiatives developed by the Company and its ability to successfully bring authorisation processes to completion.

Giovanni Di Pascale, CEO of Altea Green Power, commented: “The *authorisation obtained for this new project confirms the solidity of the path undertaken with the Vignole Borbera project and our team's ability to efficiently manage multiple authorisation processes in parallel. This result consolidates our presence in a territory we consider strategic for the development of storage systems, in line with our strategy of strengthening our presence in Northern Italy, an area that offers particularly favorable market conditions in terms of profitability for end investors. The Castelnuovo Scrivia project represents a further building block in the Company's BESS authorisation pathway, confirming the solidity of our development model and our team's execution capabilities*”.

This press release is available on the Company website www.alteagreenpower.it and at www.1info.it

About Altea Green Power

Altea Green Power is a company listed on the Italian Stock Exchange - STAR segment -, founded in 2008 in Rivoli with the aim of supplying and managing renewable energy plants - photovoltaic, wind, and storage - that ensure maximum efficiency and operational reliability, all while fully respecting the environment. Altea Green Power is also an Independent Power Producer (IPP) focused exclusively on renewable sources and a supplier of EPC (Engineering, Procurement, and Construction) services, positioning itself as the primary point of reference for the construction and start-up of renewable plants. In a market where energy transition is central and medium to large-sized companies

are increasingly taking the lead, Altea Green Power aims to be a key partner in the field of energy efficiency, helping its clients identify the best solutions to reduce energy consumption and mitigate the resulting impacts on global climate change.
