

**ALTEA GREEN POWER: A NEW 10 MW PHOTOVOLTAIC PROJECT HAS BEEN
AUTHORIZED BY THE TUSCANY REGION IN THE MUNICIPALITIES OF
ORBETELLO AND MAGLIANO (GR)**

**THE GROWTH OF THE PORTFOLIO OF AUTHORIZED PROJECTS CONTINUES
SUCCESSFULLY**

Rivoli (Turin), 4 August 2026 - **Altea Green Power (AGP.MI, hereinafter “AGP” or “the Company”)**, a company active in the development of projects and the construction of “green energy” plants, announces that the Tuscany Region has authorized the project for a photovoltaic plant with a total power of approximately 10 MW located in Tuscany, in the municipalities of Orbetello and Magliano (GR).

The project has already been contracted with a leading operator in the sector, and the transaction is expected to close no later than the first quarter of 2027.

This new authorization milestone confirms the growing trend in the number of projects successfully completing the authorization process, demonstrating the strength of AGP's business model and its ability to progressively expand its authorized pipeline.

Giovanni Di Pascale, CEO of Altea Green Power, commented: *"The authorization obtained from the Tuscany Region for the Orbetello and Magliano in Toscana projects further confirms our strategic execution capabilities. Consistently converting orders into authorized and contracted projects is not a one-off achievement, but the direct result of deeply rooted technical, authorization, and regional expertise. This success strengthens our commercial pipeline and positions us as a partner of excellence to seize the opportunities of the Italian energy transition, in a market where operational continuity and efficiency are the true competitive differentiators".*

About Altea Green Power

Altea Green Power is a company listed on the Italian Stock Exchange - STAR segment -, founded in 2008 in Rivoli with the aim of supplying and managing renewable energy plants - photovoltaic, wind, and storage - that ensure maximum efficiency and operational reliability, all while fully respecting the environment. Altea Green Power is also an Independent Power Producer (IPP) focused exclusively on renewable sources and a supplier of EPC (Engineering, Procurement, and Construction) services, positioning itself as the primary point of reference for the construction and start-up of renewable plants. In a market where energy transition is central and medium to large-sized companies are increasingly taking the lead, Altea Green Power aims to be a key partner in the field of energy efficiency, helping its clients identify the best solutions to reduce energy consumption and mitigate the resulting impacts on global climate change.
